LIVE STREAM   AUTO

IFA makes it easy to supervise the operative state of your alarm panels. Alarm events and sensor activation with related video playback from your integrated VMS are simple and instant.

As a launch promotion for 2023 charges for initial setup and personnel training are been exonerated for a smooth and perfect product experience.

Learn more about how IFA can serve your needs. Ask for a demo writing to info@hyperit.do

IFA IS COMPATIBLE WITH THE FOLLOWING SYSTEMS

DMP   DSC   milestone   Nx Witness   DW spectrum   WISENET WAVE

dahua   HIKVISION   Telegram   slack
The best solution for security panel supervision and instant video alarm confirmation is offered in two versions and a trouble-free subscription mode for your convenience.

IFA FORWARD

$8

PER PANEL PER MONTH

IFA STANDARD

$11

PER PANEL PER MONTH

IFA FORWARD

Forward panel messages to VMS for post processing.
> Alarm panel integration.
> Panels live message monitoring.
> VMS integration.
> IFA System Dashboard.
> Panels messages log.

IFA STANDARD

All IFA Forward functionality plus the following.
> VISOR Dashboards.
> Live and recorded video from related alarms.
> RTE Events.
> Panel live zone monitoring.
> Panel remote control (Arm, disarm, more).
> Arming assistant.
> Alarm history.
> Auto video download from related alarms.
> Multiple reports from panels and VMS.
> Manual video download.
> Optimized to display alarms on 4k monitors.
> Users privileges.
> Sessions administration.
> Users audit reports.
> Alarms notifications thru E-Mail and Telegram.
> More

UNIFIED SUPERVISION

A single clear, easy-to-read interface to learn for all your devices. No more individual programs for each device for you to deal with.

NOTIFICATIONS RULES

Configure rules to define who or which members of your team will receive what kind of notifications and by which method.

CRITICAL EVENTS

All relevant information of all your systems on a single window. The IFA dashboard displays all critical events that require your attention.

RTE EVENTS

IFA receives in real time all panel events even if the panel is not armed. Real-time Events allow you to track sensor's activations for many purposes including investigation of incidents.

CONSOLIDATED REPORTING

All your devices log in a single place with a friendly interface for report generation and data export. Your live just got easier.

REMOTE CONTROL

Arm, disarm, and silence local or sirens from your desktop with all the control and precision you need.

VMS subscription license is sold separately at US$20 per month.
Prices are expressed in North American Dollars.
Prices does not includes sales tax where it may apply.
